

STATE OF ALABAMA  
**PROCLAMATION**  
BY THE GOVERNOR

**WHEREAS**, a State of Emergency has been declared to exist in the states of Alabama, Louisiana, Mississippi, and Texas due to the damage expected to be suffered because of Hurricane "Ike"; and

**WHEREAS**, many counties and individuals in the states of Alabama, Louisiana, Mississippi, and Texas are expected to experience damage to public and private property; and

**WHEREAS**, many individuals in these states may suffer physical injury or death and the disruption of essential utility systems may occur causing extreme peril to the citizens of these states; and

**WHEREAS**, all of the above will adversely affect the public health, safety, and economy of the people in the states of Alabama, Louisiana, Mississippi, and Texas; and

**WHEREAS**, the conditions in these states, which will likely result from Hurricane Ike, now require, and will continue to require, a massive public and private response to provide immediate emergency assistance and continuing emergency relief to individual persons, businesses, as well as federal, state, and local governmental units; and

**WHEREAS**, such massive public and private relief response requires the transportation for food, supplies, tools, equipment, medicine, public and private health care, law enforcement, security services, public utility services, sanitation and waste disposal, cleanup of debris, property restoration and reconstruction, and other necessities, which threatens to overload the available transportation systems to, from, and within these states; and

**WHEREAS**, the safety and welfare to the inhabitants of these states require the operation of various motor vehicles, including, but not limited to, commercial carriers, into, through, and within the State of Alabama to bring much needed relief to the victims of this natural disaster.

**NOW THEREFORE**, I, Bob Riley, do hereby instruct the appropriate Alabama state agencies to exercise their statutory authority to assist the entities affected in recovery from the damage caused by Hurricane Ike, and I further instruct this state to take the necessary steps and issue the appropriate documents to expedite the movement of vehicles or vehicles and loads that are transporting emergency equipment, services and supplies, tree and debris removal equipment, damaged timber, storm-related debris, building and construction materials, or temporary emergency buildings and their components.

**BE IT ORDERED** that these documents shall be subject to approval and clearance by the Alabama Department of Transportation and the Alabama Department of Public Safety and shall cover specific designated state routes. Transporters are responsible to ensure that they have proper oversize signs, markings, flags and escorts as defined in the State of Alabama's rules and regulations.
