## Website updates.....by Tom King

### Message Board Updates

Private Messaging or PM has been modified to make it more user friendly. In the past, to send a private message, you needed to click on the blue button in the bottom of a persons post.

Now you can PM anyone even if they haven't posted before on the message boards. Here's how it works. Login to any of the message boards which includes DRC, APC, PCRC, and so on. Then click on 'Private Messages' and this will bring up the PM control panel. Next to where it says '**Jump to Folder**' select the option '**Compose Private Message**' and hit the Go button.

This brings you to an area to write a new private message. You'll need to select to whom you're going to send the private message via the '**Send Private Message to:**' drop down box. If you're logged in to the main IFTA, Inc. message board hundreds of names are available. If you're logged into the APC then all of the APC members will be available instead.

### Comment on Ballots

This year there are four Full Track Ballot Proposals up for commenting. The deadline for leaving comments for the first period ends on **May 20, 2010**.

### Meeting Minutes

Meeting Minutes have been updated for the following:

Information Technology Advisory Committee  
Industry Advisory Committee

### Committee Member Terms

We have added Committee Member Terms for the following committees:

Agreement Procedures Committee  
Audit Committee  
Law Enforcement Committee  
Dispute Resolution Committee

## IFTA, Inc. Clearinghouse Update

[jdegraf@iftach.org](mailto:jdegraf@iftach.org)

### Funds Netting

How can we not talk about Funds Netting? Things are running pretty smoothly with funds netting. We had a few Jurisdictions that did not timely pay into the IFTA, Inc. Funds Netting account for the first pro-rate period in April. They were able to provide timely payments before the end of the second pro-rate period, so that's good news.

We would really like to see everyone pay on time during the first pro-rate period. I really can't comment as to why some of the jurisdictions were late, but we will discuss this further during April's Clearinghouse Advisory Committee teleconference.

### Some New Reports

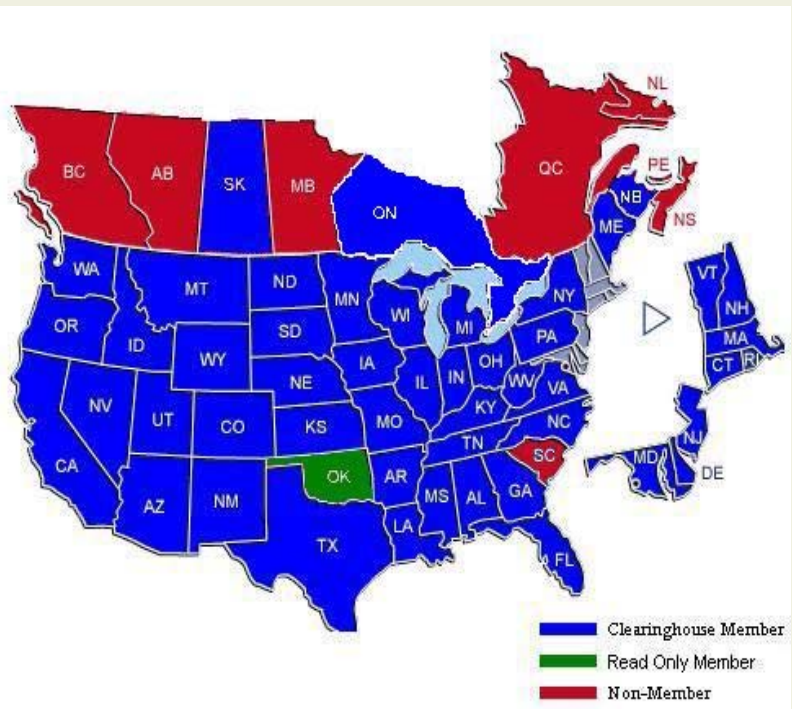

Posted some new reports on the Transmittal Report Generator page. One report lets you search for all 'AU' return types posted by your Jurisdiction. This is report 6b.

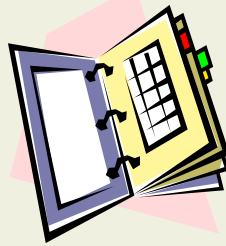

On the same pages, reports 5d and 5e have been added. These are distance reports as requested by a participating jurisdiction.

Check them out, you may find them useful. And we will always accept requests for further reports.

### Audits—Interjurisdictional Audit Reports (IAR)

Based on another Jurisdiction request, we also added two more search methods for looking up IARs. Search 4 will show you all audits for a given year. Search 5 allows you to search by file name.
