## Decal Placement Information

The IFTA Law Enforcement Committee (LEC) is developing a decal placement guide for the various qualified vehicles. Included as part of the LEC's Best Practices Guide, this easy-to-follow, one-page sheet highlights the recommended area of the vehicle in which IFTA decals should be affixed. As carriers become accustomed to placing their decals in the specified location, uniform placement of decals can be realized across the IFTA community. Establishing a defined, uniform area benefits all jurisdictions' enforcement personnel by allowing them to easily spot decals at highway speeds, thereby reducing the chance of a carrier being pulled over.

The LEC encourages the use of this guide and will make it available to your jurisdiction for downloading from IFTA, Inc.'s website. Two versions will be available: one black and white version for mass copying, and one colorized version. Suggested uses for the guide include:

- ◆ mailing it with your carriers' decal orders
- ◆ printing it in your jurisdiction's carrier compliance manual
- ◆ posting in on your jurisdiction's web site
