IFTA, Inc. Clearinghouse Update

jdegraf@iftach.org

Clearinghouse Quality Control Project

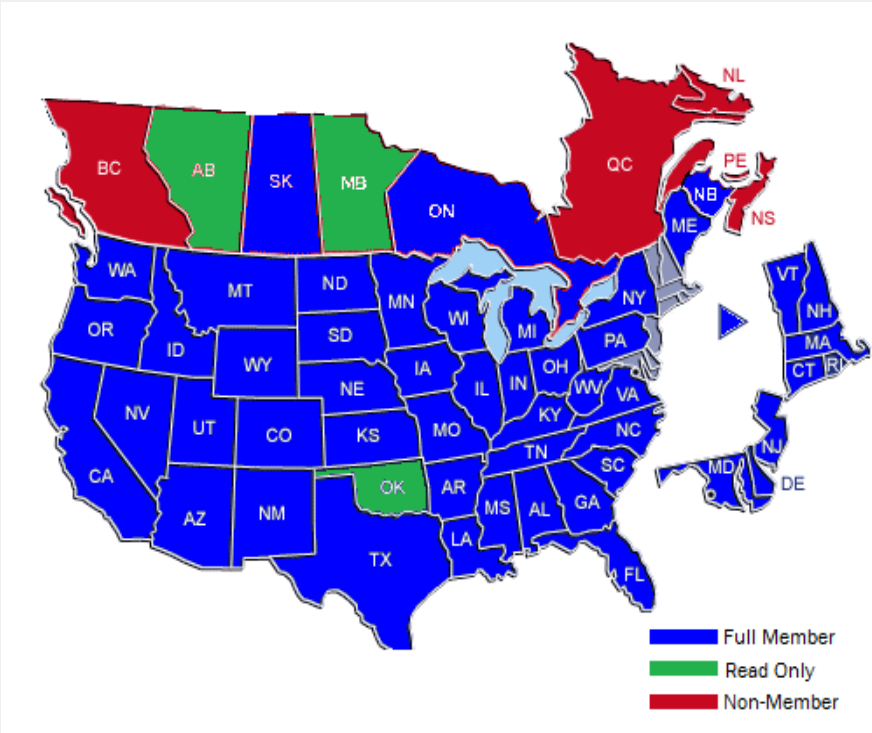

On November 17, the Quality Control Team for the Clearinghouse sent out notices of issues regarding the quality of demographic data sent to the Clearinghouse. Most of the changes simply require a full refresh of data. Another pressing issue was the use of the date field and sending a valid date as requested in our data definitions. So far the response has been positive and many jurisdictions have already completed the fixes as requested by the Quality Control Team. Thank you! The due date for fixes is February 17, 2012.

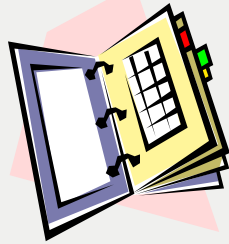

ITAC—Roadside Enforcement

The Information Technology Advisory Committee sent out a survey this month regarding roadside enforcement. Jurisdictions are being asked to provide to the committee information regarding what systems roadside enforcement uses when a carrier is stopped to check for credentials or varying status's either IFTA, IRP etc. We have already received quite a few responses back. So please be sure to fill out the survey and return it by January 31, 2012.

Share Revoked and Suspended Status with NLETS

Most jurisdictions so far have agreed to share Revoked and now Suspended accounts with NLETS. We are still waiting for a few more answers from jurisdictions. So far a total of 5 jurisdictions have said no to sharing any data.
