Antoinette Tannous (QC)

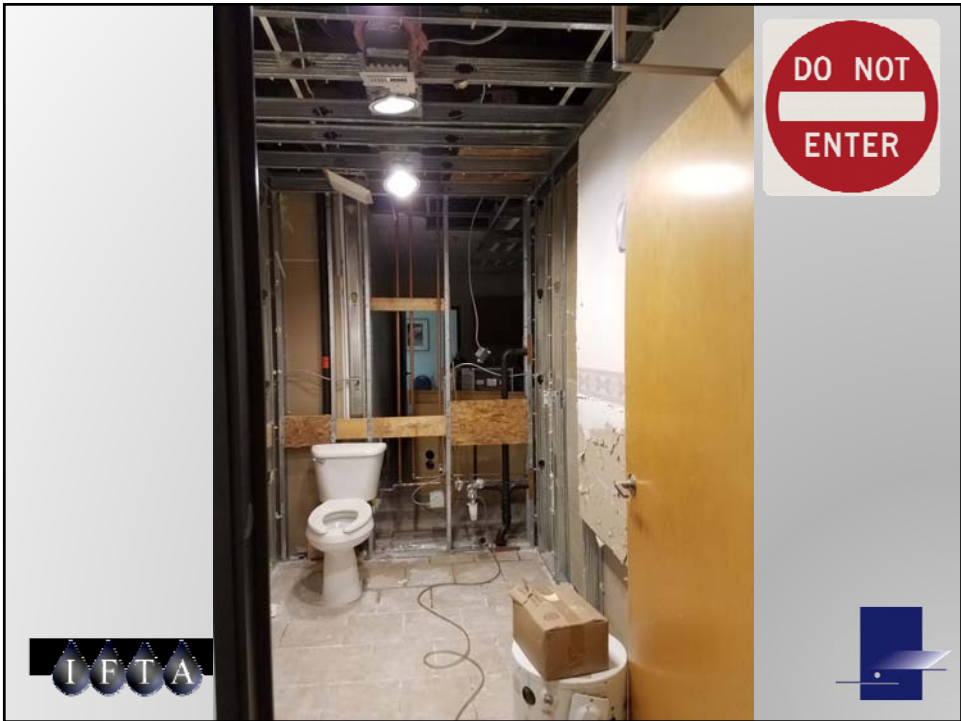

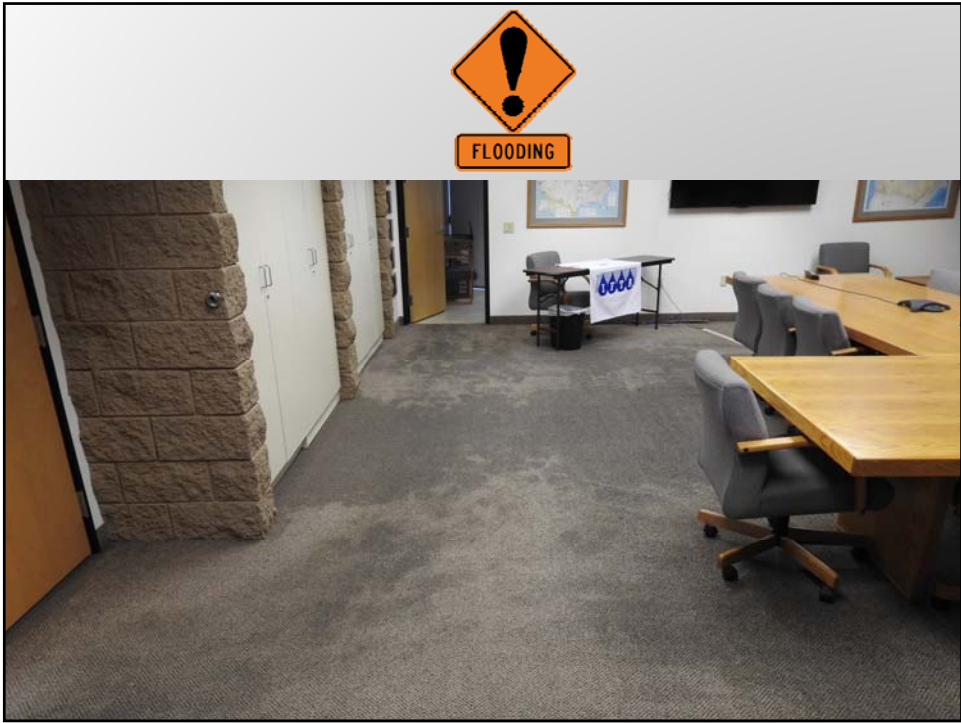

Rick Taylor (KY)

The Great Water Heater
Blow Out of 2017

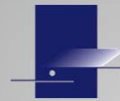

What Do You Do?

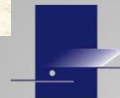

SOLD

Where do you go?

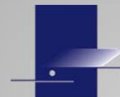

From Suite B-7 to Suite B-6

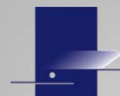

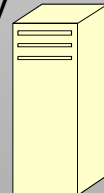

Why Go There?

- Leasing a much smaller space back from the Buyer
- Lease term 5 years. However, we built in an option to terminate after 2, 3 or 4 years with 120 days notice. No penalty for the early out.
- That way, we can take a bit more time to determine whether to purchase a small condo office or work remotely.

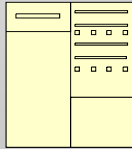

Clearinghouse

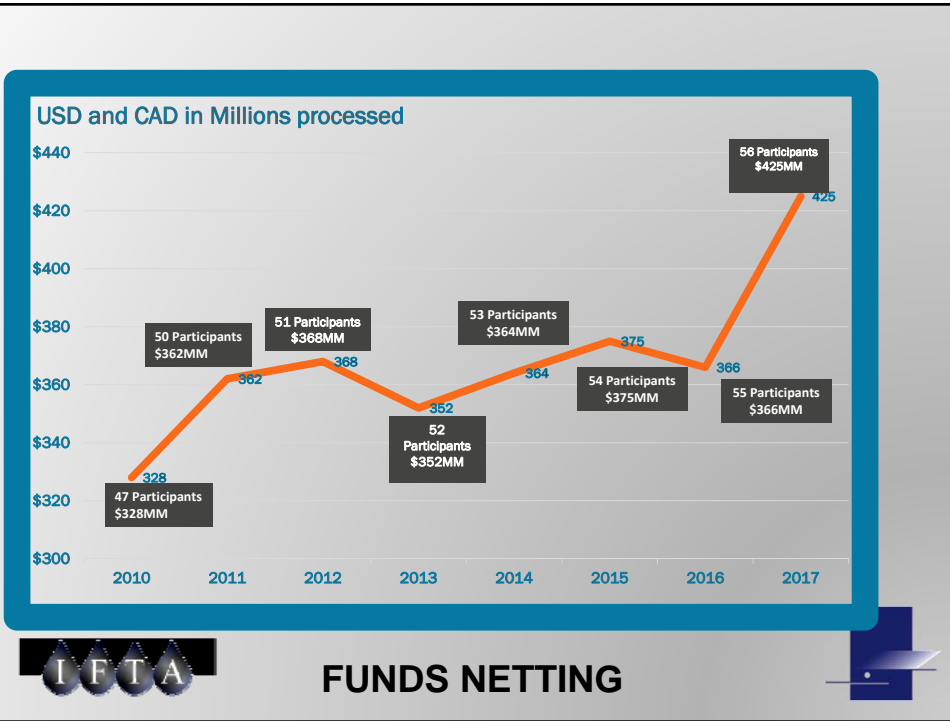

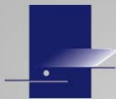

- 1) OK is now a full participating member of the Clearinghouse and uploaded its first transmittal in July.
- 2) Implemented demographic data quality control checks and new e-mail notifications.
- 3) Re-wrote and released more web services concentrating on Demographics.

Clearinghouse

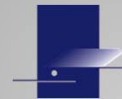

- 4) Hardware and Software upgrades for every Clearinghouse based server.
- 5) Worked with many jurisdictions in light of the data quality control check and full file uploads, and established new data connections as jurisdictions switch data providers

FYE18

- Implemented the travel funding for one person to attend an IFTA Meeting. We started with the 2018 Audit Workshop. 22 jurisdictions used this funding.
- Continue working with the IRP Electronic Verification of Operating Credentials (EVOC) Task Force (formerly known as the Electronic Credentials Task Force).

FYE18

- SOCII and Financial Statements Audits are underway for FYE17.
- Work continues on the action items from the Strategic Plan
- Monitoring ever changing technologies
