Clearinghouse URL Address Changes

IFTA, Inc. is changing the way in which we maintain our domain for our demographic and transmittal web pages. We currently do not have a domain name. Instead, we use just an IP address to access our demographic and transmittal pages. This was done intentionally this way to prevent people from googling a name and finding our secure websites. However, recent changes to the way in which certificates are renewed for our domains have caused us to change to a domain name vs an IP address.

We are therefore changing to a Name-Based URL for our Transmittal and Demographic webpages.

Transmittal website:

<https://209.172.197.108> will change to <https://transmittals.iftach.org>

Demographic website:

<https://209.172.197.106> will change to <https://demographics.iftach.org>

Users may begin using the new Name-Based URLs immediately.

At the end of April, users will be automatically re-directed to the new Name-Based URLs if they go to the old IP-Based URL address.

Starting June 1st, 2026, you will no longer be able to access our Transmittal and Demographic webpages by using the current (old) IP address. If you have saved the link to access our webpages using the IP address, you will need to re-save the link using the new Name-Based URL.

You can immediately start using the new Name-Based URLs and as noted above, starting at the end of April, you will be automatically redirected to the new Name-Based URL if you try accessing our webpages using the IP address. You should change your saved links as soon as possible and before the end of May.

New user registrations will still use the old IP-Based URL addresses, until the end of April. IFTA, Inc. will then start sending out new user registration links using the new Name-Based URL address.

A summary of the timeline:

- Name-Based URLs can be used immediately for all web and webservice access.
- IP-Based URLs can still be used until May 31, 2026.
- New User Registration links will use Named Based URLs starting April 26, 2026.
- Users will be automatically redirected to the Named Based URL sites starting April 26, 2026,
- IP Based URLs will no longer be available June 1, 2026.
- Named URLs will be used exclusively starting June 1, 2026.

Sincerely,

Carmen Martorana, Jr. CPA, MST
