RE: 2021 Ohio IFTA Decals

Fellow IFTA Jurisdictions and Law Enforcement Agencies,

Over the past month, Ohio has received multiple inquiries from licensees stating that the color (red pantone 485C) on their 2021 Ohio IFTA decal is fading. Ohio is currently working with the vendor to do a complete replacement of all decals to licensees.

Enforcement may encounter some 2021 Ohio IFTA decals that do not meet the specifications set forth by IFTA, Inc. We ask that enforcement honor those decals until Ohio gets the new decals in stock and replaced. The replacement timeframe is still being finalized with the vendor, but licensees will not have to request a replacement. Ohio will mail out new decals to all licensees once we receive the new decals. Ohio will replace the decals in the original sequential decal series for calendar year 2021.

Ohio appreciates your patience in this matter and apologizes for any inconvenience.

Sincerely,

Ohio Department of Taxation
Excise and Energy Division
