

NOTICE TO IFTA JURISDICTIONS

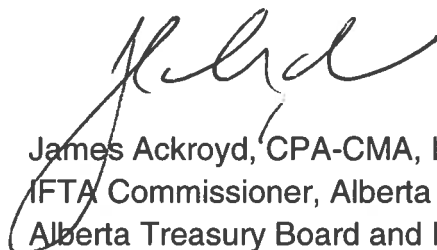

September 28, 2026

RE: Alberta Fuel Tax Relief Effective October 1, 2026

Please be advised that fuel tax rates in Alberta have been reduced to nil effective October 1, 2026. This reduction to the fuel tax rate has been recorded in the IFTA Tax Rate Matrix and carriers should continue to report all travel and fuel purchases in Alberta as they normally would.

Rates will remain at nil until December 31, 2026, at which time a quarterly review will be conducted to determine if fuel tax rates should increase and by how much. All future tax rate changes will be reflected in the IFTA Tax Rate Matrix in a timely manner so reporting of travel and fuel purchases in Alberta on IFTA returns will not be impacted.

Sincerely,

James Ackroyd, CPA-CMA, LLB.
IFTA Commissioner, Alberta
Alberta Treasury Board and Finance
