

**To:** IFTA Jurisdictions and IFTA Enforcement Offices  
**From:** Service Nova Scotia & Internal Services  
**Date:** June 21, 2022  
**Subject:** 2022 Nova Scotia IFTA Decals

Please be advised that Service Nova Scotia & Internal Services is experiencing problems with 2022 IFTA decals issued to Nova Scotia carriers. We have received multiple reports of defective decals partially or fully peeling off trucks. This issue has been communicated to our vendor and the cause is under investigation.

Service Nova Scotia & Internal Services is offering replacement decals at no cost to carriers that were issued defective decals. The application for replacements is available on the [NS IFTA Decal Replacement Webpage](#). Carriers must apply for replacements if a decal has fully or partially peeled off one or more trucks in their fleet.

In the meantime, we are requesting that enforcement agencies in other jurisdictions consider this before issuing citations to Nova Scotia carriers.

Sincerely,

IFTA Unit  
Service Nova Scotia & Internal Services
