VIRGINIA 2011 IFTA DECALS

Virginia is experiencing sporadic problems with the quality of the 2011 International Fuel Tax Agreement (IFTA) decals issued to Virginia based carriers. The problems include fading, peeling and cracking.

The problem has not been wide spread enough to warrant a complete reissuance of decals. We are issuing replacement decals to carriers free of charge as necessary.

We ask that law enforcement officials give consideration to this fact as they enforce the provisions of the IFTA.
