RE: Missouri 2025 IFTA License and Decal Delay – UPDATE

Due to delays in obtaining decal manufacturing material, Missouri is unable to complete the issuance of 2025 IFTA licenses and decals prior to December 31, 2024. We are currently awaiting our scheduled production run and estimate that all of Missouri's 2025 IFTA license holders will be renewed by mid-January. We anticipate the 2025 IFTA decals to be distributed with sufficient time to be affixed to power units prior to the end of the 2024 enforcement deferral on February 28, 2025.

Missouri requests all IFTA jurisdictions to honor the IFTA 2024 license and decal grace period for Missouri licensees.

Enforcement may also encounter Missouri carriers that held a valid 2024 IFTA license but are unable to display a 2024 decal for new vehicles added to their fleet after December 31, 2024.

Missouri requests that IFTA jurisdictions suspend enforcement action on Missouri carriers who can produce a valid 2024 Missouri IFTA license but cannot display a 2024 decal on the power unit.

Missouri will post a subsequent memo when 2025 licenses and decals have been provided to carriers.

Your patience and consideration are appreciated as we continue to work through the decal production delay.

Sincerely,

Aaron Hubbard
Director, Motor Carrier Services
