

**NEW AUDITOR TRAINING PART 4 IS NOW AVAILABLE!**

IFTA, Inc. is pleased to announce that the TRUedu New Auditor Training Series Part 4 is now published and available to all participants who have successfully completed Parts 1 through 3 of this series. Part 4 of this comprehensive and interactive series, named ***Sampling-Requirements and Techniques***, focuses on the heart of an IFTA audit, the sampling process. Starting with a quick lesson on auditing theory for IFTA, we'll explain how the two components that make up Adequacy of Records, sufficiency and appropriateness, affect the audit. Together we'll learn about what factors impact the sampling process and what to avoid as you select periods, vehicles, and records. And throughout this session you will participate in several interactive exercises to test the knowledge gained.

This entire series will appeal to auditors and audit managers of all skill levels. The series is being rolled out in multiple sessions. It is anticipated that there will be approximately eight sessions, published approximately four to six weeks apart from each other. Once the entire series has been published and you have completed each session (remember to select "Exit Activity" to record your completion) a Certificate of Completion for the series will be available for download. Check the IFTA, Inc. website frequently for updates on this training series. Remember, TRUedu is IFTA's home for online learning. As always, please reach out to us through [LMShelp@iftach.org](mailto:LMShelp@iftach.org) with any questions or to seek assistance on using TRUedu.

Sincerely,

Rick LaRose
