WYOMING Tax Rate Changes for
2013 International Fuel Tax Agreement (IFTA)

Effective July 1, 2013, Wyoming will increase the per gallon fuel tax by $0.10. The increase will be added to Wyoming’s tax rate for a total of $0.24 per gallon. Some of the fuel definitions will also change in Wyoming Statute, and so the following fuels will also be taxed at $0.24 per gallon. There is still no tax on Ethanol or Methanol unless it is mixed with gasoline (E-85, M-85 etc).

<table>
<thead>
<tr>
<th>Gasoline</th>
<th>Special Diesel</th>
<th>Gasohol</th>
<th>Propane</th>
<th>LNG</th>
<th>CNG</th>
<th>Ethanol</th>
<th>Methanol</th>
<th>E-85</th>
<th>M-85</th>
<th>AVG</th>
<th>Biodiesel</th>
</tr>
</thead>
<tbody>
