Chapter 1 **Welcome**

It is our pleasure to welcome you as a new member of the International Fuel Tax Agreement (IFTA) Audit Committee. You have joined a team of professionals and we value your input as we continue to build upon our success working as a team. With joint efforts, healthy exchanges of ideas and opinions, we will continue to deliver the highest level of work.

Who We Are and What We Do

The Audit Committee was originally established by the IFTA Articles of Agreement and the Bylaws of IFTA, Inc. Its first formal charter was written and approved by the Board in April 1998. The Committee membership is comprised of representatives from each of the five geographic regions, Board liaisons, Committee Chair, Committee Vice-Chair, and Ex-Officio.

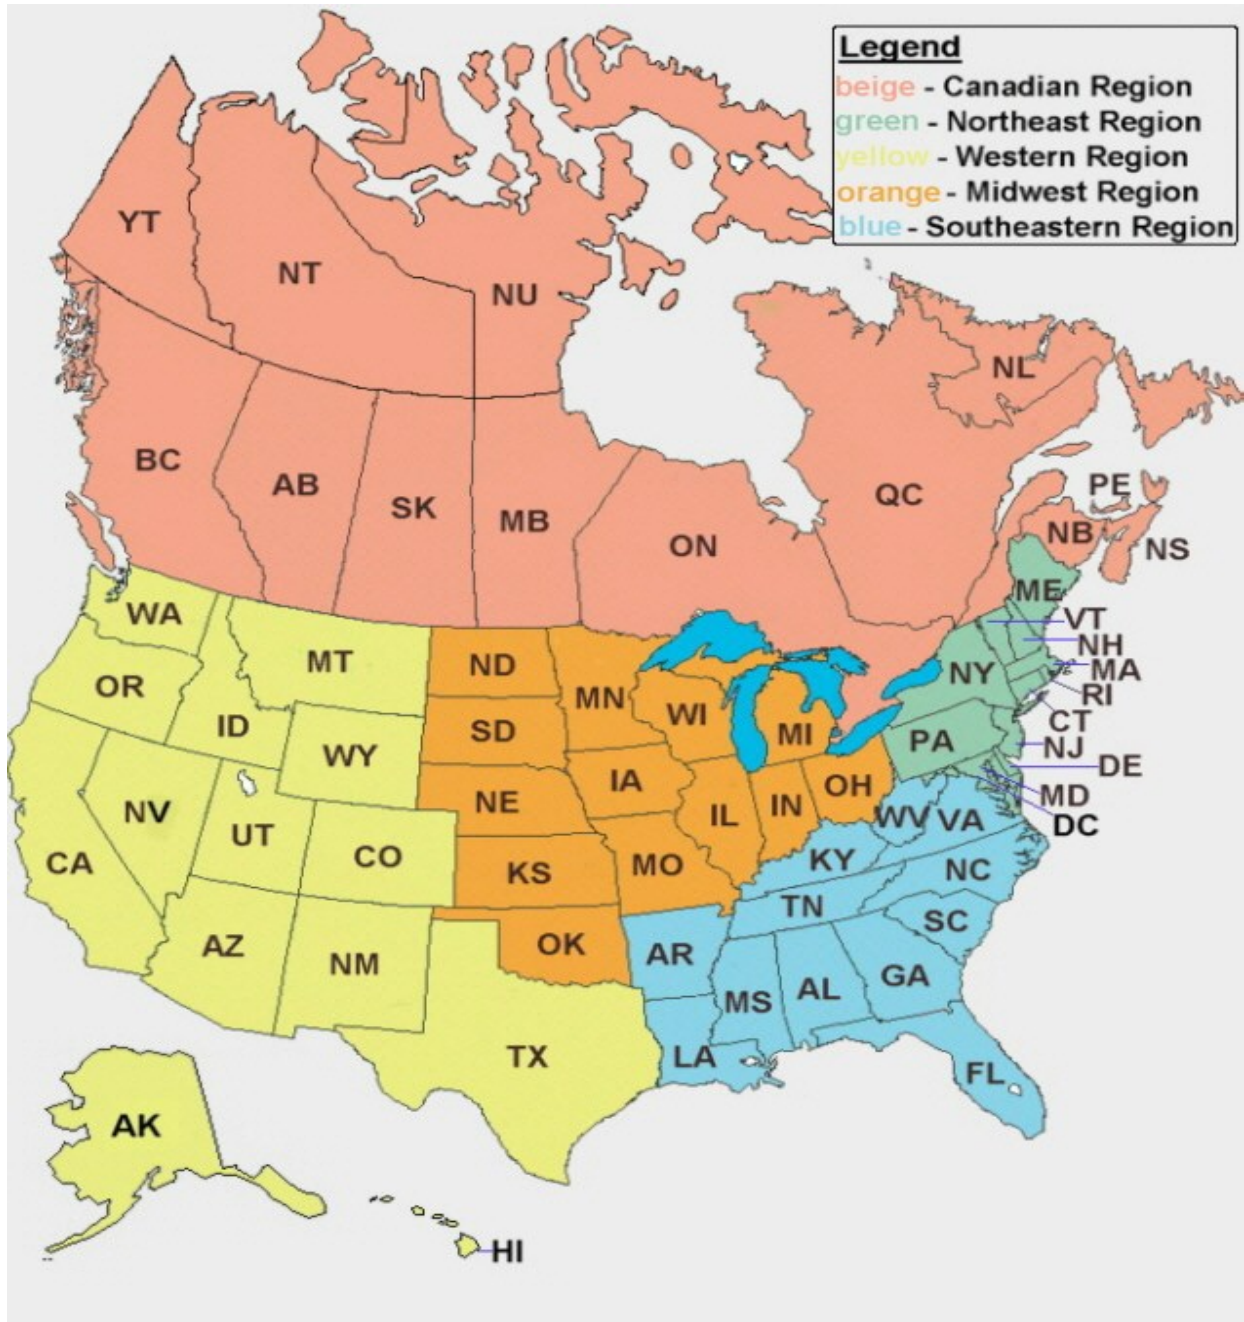

At its inception, the Audit Committee was tasked with the review, maintenance of the Audit Manual and any other assignments as issued by the IFTA, Inc. Board of Trustees. As the Audit Committee has evolved, additional responsibilities have been added. These include facilitating jurisdictions with auditing matters; creating, reviewing and commenting on preliminary proposed ballots; providing support for subcommittees established with the committee; and overseeing the Annual Audit Workshop. In order to accomplish all of this, Committee members are asked to attend monthly teleconference calls and the annual Committee meeting the day after the Audit Workshop ends.

Chapter 4

Audit Workshop

Each year the IFTA Audit Committee in partnership with the IRP Audit Committee continues the commitment to provide training in the areas of fuel use tax and vehicle apportionment auditing. Using combined experiences, the development of this workshop offers an exciting and informative way of providing training. This workshop is a collaboration of efforts from both communities (IFTA and IRP) in concert with industry. The workshop presentations are based on the formula developed and perfected through recent workshops. There is a mix of General Session presentations and Breakout Sessions. The General Session offers several timely and interesting topics that impact auditors and industry representatives in a variety of ways. The breakout sessions offer more training by experienced personnel and touch upon concerns facing today's auditors. The workshop attendee's will take away valuable knowledge from this very informative experience.

Each year many months of planning go into making the Audit Workshop a success. Immediately following the current year's workshop, both Audit Committees begin planning for the next Audit Workshop by reviewing the evaluations submitted by the participants. A list of possible topics is gathered and discussed.

Beginning in March, the Workshop Planning Committee which is comprised of the Chairs and Vice Chairs of both the IFTA and IRP Audit Committees, representative from the Industry Advisory Committee, two representatives from IFTA Inc., representative from IRP Inc., materials

coordinator, and a breakout coordinator start participating in teleconference calls. The Planning Committee is responsible for coordinating the workshop with IFTA, Inc. They are also responsible for setting the agenda, planning the topics to be covered, and gathering volunteers to create and present the materials for the workshop. Most of the volunteers come from the IFTA and IRP Audit Committees. Some of the volunteers are from the IFTA and/or IRP communities and industry. By August, the volunteers begin writing the materials that will be presented in the workshop. The more generalized topics will be discussed in the General Session while the more specific; interactive topics are created for the Breakout Sessions. The individuals presenting the General Session topics create the material to be used. The facilitators for the Breakout Sessions are not necessarily the creators of the material. Because of the time limitations, it is important for the individuals creating the materials for each breakout session to start communicating and coordinating with each other by August.

Chapter 5

Audit Committee Meetings

Every year the Audit Committee has an all-day committee meeting after the Audit Workshop. It is scheduled for the day following the workshop. This meeting is a chance for us to meet in person as a group. We discuss the accomplishments of the previous year and set goals for the current year. Audit Committee member's expenses for the meeting including hotel, airfare and meals are paid for by IFTA, Inc.

All other meetings for the year are held by teleconference. Various topics are discussed during a conference call. Usually updates are given from sub committees. Updates are given by the Chair or Vice Chair regarding the Audit Workshop plans. This will also be the time that ballots are discussed. Usually the date and time of the next meeting is established at the end of each month's conference call. Each month the Chair will email the committee members the date, time, agenda, phone number, and access code for the conference call.

Ballots

Proposals for amendment of the Agreement, Procedures Manual, or Audit Manual may be made by any member jurisdiction, the Audit Committee, the Agreement Procedures Committee, the Law Enforcement Committee, the Program Compliance Review Committee, or the Board of Trustees of the Association. The AC is responsible for reviewing, developing, and commenting on preliminary proposed ballots and providing support for subcommittees. As an AC member, ballot work is an important part of your participation, and you may be asked to assist in the ballot process. Ballots sponsored by the AC, generally will address sections of the Audit Manual; however, changes to the Audit Manual may require changes to the Articles of Agreement as well as the Procedures Manual. Please keep in mind that you represent a region of jurisdictions, not just your own personal jurisdiction. Ballots should be approached without jurisdictional bias and are created with the whole membership and industry in mind. The ballot process is addressed in the Articles of Agreement, Article XVI.

Best Practices Audit Guide

The AC has the responsibility for the creation and maintenance of the Best Practices Audit Guide. The Guide was created as a reference tool used by member jurisdictions and its auditors in conducting IFTA audits. As a member of the AC, you may be asked to edit, create, update, and/or offer your comments for suggested changes to the Audit Guide. It is also your responsibility to review the guide for possible changes as new ballots are presented and passed during the year. Discussions during audit meetings and sessions at the annual Audit Workshop

often refer back to sectional material referenced within the guide. As an AC member, it is strongly recommended that you become familiar with this document and its contents.

Travel Reimbursement for Committee Meetings

Travel expenses may be paid if approved by the IFTA, Inc Board of Trustee for one committee meeting each year.
