IFTA Comings and Goings

*Indiana
IFTA Commissioner:
    Name: *Jeff Hood/ Deputy Director*
    Phone: *317-690-5923*
    Email: *jhood@dor.in.gov*

If your jurisdiction experiences any changes please be certain to visit the IFTA, Inc. website, login, and update your jurisdiction's communication list. If you need assistance with how to do this please contact Tom King at tking@iftach.org.

* It was brought to our attention that, in the January 2017 edition of *THE IFTA NEWS*, Mr. Jeff Hood was listed as being the new Commissioner for Illinois. This was an error. Mr. Hood is the IFTA Commissioner for the Indiana DOR. His correct contact information (and location) is listed above.

The following jurisdictions have updated the Jurisdiction Communication List (JCL) in some manner since *January 15, 2017*. Please visit their JCL on the secure website to ensure that you are working with the most current information for these jurisdictions:

Mississippi	**Oklahoma**	**Quebec**
Tennessee	**Texas**	**Wisconsin**

JCL Update

A new field was added to the Jurisdiction Communication List called Demographic Data Errors. You can locate it by logging into the secure section and under the JCL go to General Information. Scroll down until you find the Transmittal area and the Demographic Data Errors field will be highlighted in the color blue. You can enter the email of person who handles Demographic your information.

If you fill this section out it will make it easier for IFTA, Inc. to contact the right person who handles your demographics should errors in uploads occur.
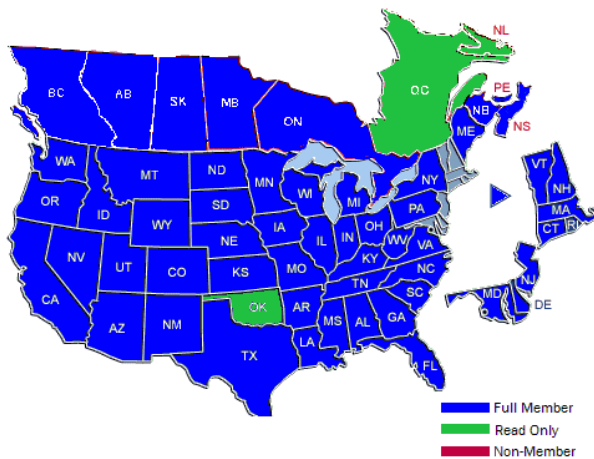

Check Your Links

Please take a moment to visit our Links page on the IFTA, Inc. website and click on the link to your jurisdiction. If the link works, great! However there are probably a few links that are out dated and need to be fixed by logging into the website and updating them on the JCL.

If you have any questions or issues email me at tking@iftach.org or call me at the office on #5.

July 2017 Demographic Full File Upload Deadline

Starting July 1, 2017, all Jurisdictions will be required to provide full baseline updates to the Clearinghouse demographic database. This file will be a complete snapshot of your current demographic database, sent to us nightly. Also at this time, we expect all jurisdictions to have their data cleaned up in regards to any errors the Clearinghouse is currently finding. Emails are being sent to each jurisdiction pointing out data errors. You can also use the demographic web pages to find and view errors.

If you still not have attempted to correct your data, we strongly recommend that you do so.

At Legatus Solutions…Our mission is to improve business processes throughout the motor carrier ecosystem for continuous compliance at lower costs.

UNIFY THE COMMUNITY TO MAKE EVERYTHING EASIER FOR EVERYONE

A whole system provides a solid solution for jurisdictions and its public. The mCarrier Ecosystem design produces highly productive solutions for all stakeholders. We integrate business logic with professional program, project, and information management. Expert technology, certified qualifications, and decades of experience with dozens of governments and thousands of companies within the motor carrier sector.

The mCarrier Ecosystem is a comprehensive set of tools that ensures all records are accurate. It also provides readily accessible tools to rectify inconsistencies or errors across records. The mCarrier Ecosystem lowers costs for both industry and jurisdictions, saves time, improves data quality, encourages higher compliance, and optimizes business and safety decisions.

Our services layer includes simple web services features available to all jurisdictions. These information technology services form a basis for intrastate and interstate fleet services for jurisdictions and industry – whether you use our mCarrier system or not!

- mServices *Commercial Vehicle Views* closes the gaps among SAFER, IFTA, and IRP

- mServices *Fees Calculator* provides accurate fees for both base and (IRP) foreign jurisdiction registration, fuel tax, and permits

- mServices *Fleet Book Information* provides accurate information among IRP, IFTA (including exemptions!), as well as operational constraints

- mServices *Secured Credentialing Cloud* provides a safe, archivist method for exchanging information, including electronic credentials and operational records

Rigid regulatory program boundaries make it harder to comply, so Legatus Solutions works shoulder - to-shoulder with clients to unify the community.
