History/Digest

Throughout the history of the Ballot Process in IFTA, many ballots that may have been beneficial to the IFTA Community have failed. Not because they have not been supported, but because in many instances, jurisdictions have failed to vote. In the current language, if a jurisdiction fails to vote, it is considered a negative vote. After discussing this potential ballot during the most recent Quarterly Regional Board update, there was a general opinion that the membership would support this ballot. As a reminder, no other organization or general election considers a “non-vote” as a “no vote”.

Intent

The intent of this ballot is to prevent a non-vote from counting as a (no vote) and to remind jurisdictions of the important responsibility of voting, whether it be in favor or opposed. The Ballot Process has changed which makes it more imperative that the commissioners stay in tune with needed changes to the living documents within IFTA.
